Please find below and/or attached an Office communication concerning this application or proceeding.

<b>Office Action Summary</b>	<b>Application No.</b> 09/692,824	<b>Applicant(s)</b> MOURAO ET AL.	
	<b>Examiner</b> Scott Kastler	<b>Art Unit</b> 1742	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

- 1) ☒ Responsive to communication(s) filed on 15 July 2004.  
 2a) ☒ This action is **FINAL**.                      2b) ☐ This action is non-final.  
 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 18-28 and 30 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The above claims are indefinite because all of the above claims depend from cancelled claims (claims 1 and 2) thereby making the scope of the claims unascertainable to one of ordinary skill in the art.

***Double Patenting***

Applicant is advised that should claim 32 be found allowable, claim 33 will be objected to under 37 CFR 1.75 as being a substantial duplicate thereof. When two claims in an application are duplicates or else are so close in content that they both cover the same thing, despite a slight difference in wording, it is proper after allowing one claim to object to the other as being a substantial duplicate of the allowed claim. See MPEP § 706.03(k). The above claims are identical.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

Art Unit: 1742

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 17-33 are rejected under 35 U.S.C. 102(b) as being anticipated by Steeghs.

Steeghs teaches a coated ferrous material, in the form of pellets, agglomerates or coated lump ore (see col. 2, lines 57-61) including coating of the ferrous materials with both of a fluxing agent, which is comprised of a material which is hardening in the presence of water (lime, limestone, dolomite containing materials, such as Portland cement, see col. 3 lines 30-35 and col. 4 lines 40-50 for example) or additional stabilizers for enhancing adhesion of the non-hardening particles, see col. 3 lines 45-65 for example) as well as a material which is substantially non-hardening in the presence of water, specifically alumina clays or bauxite (see col. 4 lines 24-26 for example) in the form of finely divided particles or powders within the instantly claimed size ranges (see col. Lines 36-38 for example) in an aqueous dispersion, where the contacting takes place by spraying or dipping (see col. 5 lines 12-21) with dispersions meeting the instantly claimed composition ranges (see col. 5 lines 28 and 55-58 for example) thereby showing all aspects of the above claims.

### ***Response to Arguments***

Applicant's arguments filed on 7-15-2004 have been fully considered but they are not persuasive. Applicant's arguments that Steeghs does not teach employing both a hardenable and non-hardenable material in the coating layer is not persuasive because, as stated above, the fluxing agent of Steeghs comprises a material which is hardenable in the presence of water.

***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
